

# CISRS SCAFFOLDING PART TWO

## COURSE CONTENT

The law requires that any individual wishing to erect, alter or dismantle scaffolding must be able to prove their competency. The industry-wide accepted proof of competency for operatives is to hold a CISRS Scaffold card. To be eligible to apply for this card, candidates must successfully complete the following elements of training, all of which are available at NETA:

- CISRS Part 1 course
- CISRS Part 2 course
- Level 2 QCF National Diploma in Accessing Operations and Rigging (Construction) Scaffolding
- CISRS Basic Skills Test

### AIM

**To train suitable candidates to the objectives approved by CISRS in the safe erection, alteration and dismantling of the following scaffolding:**

- **Basic independent tied scaffold with prefabricated beams**
- **Protective fans**
- **Pavement gantry**
- **Loading bay**
- **Roof saddle scaffold**
- **Roof edge protection**
- **Truss out scaffold**

### NVQ Diploma Level 2

On the final day of the Part 2, delegates will be issued with a blank NVQ portfolio and an Assessor will carry out an NVQ induction. During the induction the Assessor will answer any questions and help delegates to make a start on the job knowledge questions in their portfolio. (The Assessor may also carry out a professional discussion). Delegates will then be expected to complete the portfolio in their own time; their Assessor will be available to provide information, advice and guidance via telephone or email.

**Please Note:** A charge for the Assessors time will be made should the delegate wish to make an appointment to have a portfolio pre-assessment check.

For further details on the NVQ Level 2, please refer to the NVQ Level 2 Diploma Course Profile (CPS04) and contact the Sales Team.

### **Pre-Requisite**

By placing a booking on the Part 2 course the delegate/employer or sponsor confirms that the delegate is currently employed or has been employed in the scaffolding industry and has at least 6 months' experience of practical scaffolding operations, since completing their Part 1 course. NETA may seek confirmation of this experience. Should it be found that the delegate does not have the relevant 6 months' experience, the delegate/employer or sponsor accept that the delegate may be asked to leave the course without any recourse to a refund of the costs incurred by placing this booking.

### **Course Duration**

10 days

### **Maximum Number**

9 persons

### **Training Aids**

Lecture notes and audio/visual presentation

### **Assessment**

Practical assessments and a 50 question test

### **Certification**

Certificates will be included in the cost of this course and CISRS certificates will be produced by NETA. They will be forwarded to the delegate directly or to their sponsor.

### **Equipment**

Delegates must wear PPE (Personal Protective Equipment) during the practical aspects of the course. Delegates will be required to provide:

- Hard Hat
- Safety Boots
- Gloves
- High visibility vest or overalls (optional)
- Safety Harness with 1.7m lanyard and rear anchor point
- Tools
  - 1x 7/16 swingover spanner
  - 1x Belt and frogs
  - 1x 6" spirit level
  - 1x 5m Tape measure

### **Additional Information**

Meeting the needs and expectations of service users is of the highest priority to our staff. Therefore, if you have any concerns or wish to make a comment about the service please contact: [info@NETA.co.uk](mailto:info@NETA.co.uk)

### **COURSE OBJECTIVES**

On successful completion of this course, delegates will be able to:

- Interpret scaffold drawings
- Erect, alter and dismantle the following scaffolds safely and in their correct sequence (as part of a team)

The scaffolder grade and VQ2 assessment is the established trade competency for the scaffolding industry and enables scaffolders to lead or partake in the majority of scaffolding operations, as covered by this training and assessment

### **COURSE SYLLABUS**

- Instruction / training SG4:15
- Product familiarisation in approved prefabricated system scaffold
- Erect and dismantle scaffold with pre-fabricated beams
- Erect/dismantle protective fans
- Erect/dismantle pavement gantry
- Erect/dismantle loading bay
- Erect/dismantle roof saddle scaffold
- Erect/dismantle splay scaffold
- Erect/dismantle roof edge protection
- Erect/dismantle truss out
- TG4 tie testing
- Alterations (e.g. Removing standards from a structure)
- 50 question test paper
