

ECITB CONFINED SPACES (MEDIUM RISK)

Aim

This course will support learners in being aware of Hazard, Risk, Controls, safe working practices in a medium risk confined space environment in line with Engineering Construction Industry Training Board ECITB and Health and Safety Executive (HSE) requirements.

Pre-Requisite

Delegates must be physically fit and have a basic understanding of health and safety. Those delegates undertaking breathing apparatus demonstrations must be clean shaven and have harness awareness.

Personal Protective Equipment

Delegates will also need to bring their own PPE (Personal Protective Equipment) which should include safety helmet, overalls, work gloves, safety glasses and safety boots.

Course Duration

2 days and will involve some physical exercise.

Maximum Number

8 persons.

Training Aids

Lecture notes and audio-visual presentation.

Assessment

Practical exercise and multi-choice assessment.

Certification

On successful completion of the course delegates will receive an ECITB Confined Space Medium Risk Technical Standard Certificate

This course meets the statutory requirements of the Health & Safety Executive.

Additional Information

Meeting the needs and expectations of service users is of the highest priority to our staff. Therefore, if you have any concerns or wish to make a comment about the service please contact: info@NETA.co.uk
