

Level 3 Design & Draughting Apprenticeship

Introduction: Computer Aided Design (CAD) has become the standard design tool in the engineering industry. Many engineering design technicians now work solely on computers, creating 3D images, engineering systems and virtual reality tours of plants that have not yet been constructed.

Key Facts:

Course Duration	Typically 42 to 48 months
Attendance Time	1 day per week
Pre-qualification Requirements	You will study functional skills in English and Maths, if you haven't already achieved GCSE grade A*-C/9-4 in these subjects.
PPE supplied	Yes

How will I be assessed? You will be allocated a course tutor/assessor to provide guided learning and support with assignments. You will be observed in the workplace by your allocated assessor.

What will I learn? You will receive comprehensive off the job training. Training will be practical using equipment, tools and machinery found in the workplace. You will learn how to operate computers and peripheral hardware, access and use a range of software packages and produce drawings using computer aided drawing software.

Why choose NETA?

- You'll learn in a real working environment
- You'll receive excellent teaching and learning
- We have strong links with business and employers
- All of our Tutors are industry experienced
- Excellent progression opportunities

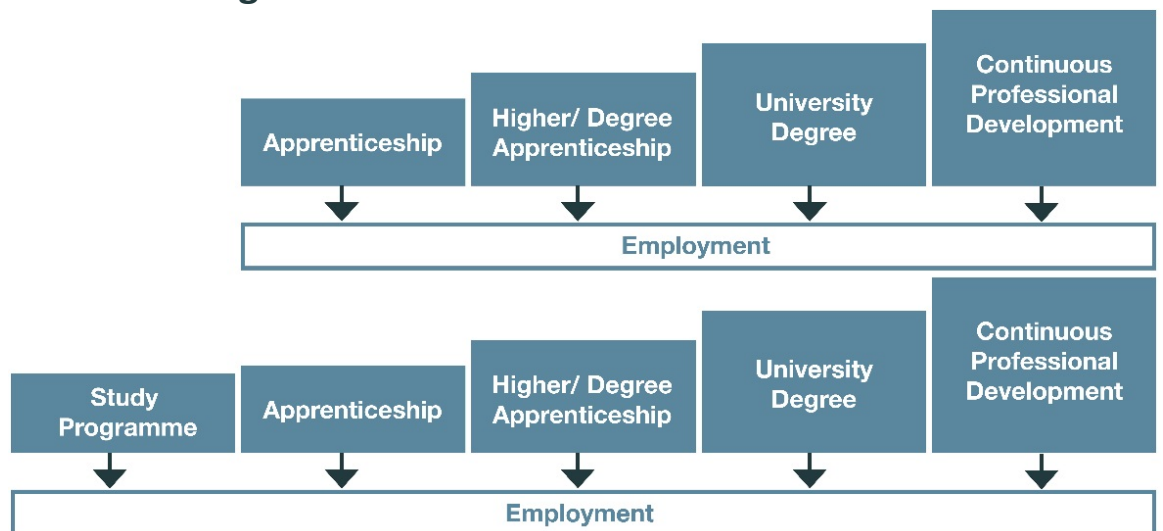

How do I apply?

Visit our website on: <http://www.neta.co.uk/courses/apprenticeships>

Call us on: 01642 616 936

Or email us on: info@neta.co.uk

Career Opportunities & Progression:

What's next? Progression on to a higher level engineering qualification which could then lead onto a higher or degree apprenticeship or employment.
