

Level 3 Fabrication Apprenticeship

Introduction: Fabricators work with metal such as steel and aluminium, cutting, shaping and forming it to exact specifications and assemble components and structures from engineering drawings. Welding and flame cutting skills are also included.

Key Facts:

Course Duration	Typically 36 to 42 months
Attendance Time	Dependant on Employer requirements
Pre-qualification Requirements	You will study functional skills in English and Maths, if you haven't already achieved GCSE grade A*-C/9-4 in these subjects.
PPE supplied	Yes

How will I be assessed? You will be allocated a course tutor/assessor to provide guided learning and support with assignments. You will be observed in the workplace by your allocated assessor.

What will I learn? Depending on the craft area you choose you will learn how to read drawings, measure and mark out shapes i.e. square, rectangular, circular and irregular, how to use hand tools and drills, how to weld and the equipment used and how to cut materials using oxy-fuel gas cutting equipment.

Why choose NETA?

- You'll learn in a real working environment
- You'll receive excellent teaching and learning
- We have strong links with business and employers
- All of our Tutors are industry experienced
- Excellent progression opportunities

How do I apply?
