

Level 3 Project Control Apprenticeship

Introduction: Project Control looks at the methods used for controlling the implementation of a project. The key elements of control systems are discussed before moving on to review the methods of monitoring progress. The use of cost and earned value management techniques is a major focus.

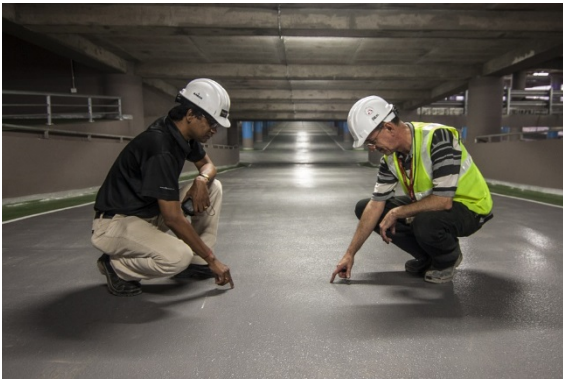

Key Facts:

Course Duration	Typically 42 to 48 months
Attendance Time	Dependant on Employer requirements
Pre-qualification Requirements	You will study functional skills in English and Maths, if you haven't already achieved GCSE grade A*-C/9-4 in these subjects.
PPE supplied	Yes

How will I be assessed? You will be allocated a course tutor/assessor to provide guided learning and support with assignments. You will be observed in the workplace by your allocated assessor.

What will I learn? Training will be practical using industrial equipment, tools and project control software in the workplace. Using technical skills, working with people and managing yourself, developing the project, project implementation, closing out the project.
